Christina Segerholm:

- Skits - 10%
- Host Interface Code - 50%
- Commenting Code(aside from test code)- 100%
- All Code (Aside from Host Interface Code and testing code) - 100%
- Unit Tests and Integration Tests - 10%
- Technical Documentation - 100%
- Data Collection Documentation(ReadMe4.txt) - 100%
- Project compilation (putting everything together) - 80%

Note we did not have any Data Collection Scripts. This is because we have not implemented the SQL part of the project yet. We did still do the documentation on it. Right now the three databases are implemented as java classes (DatabaseAController, DatabaseBController, DatabaseCController).
