WHO WE ARE

Serve with Ease (SWE) is an application that aims to optimize efficiency of restaurant employees and facilitate the roles of employees.

◊

WHAT WE DO

SWE focuses on improving the speed of service, communication between employees, and organization of employee resources

◊

HOW WE MAKE IT HAPPEN

SWE integrates an instantaneous messaging system with a simple, user-friendly user interface to easily communicate with all restaurant employees.

SWE'S FEATURES

REAL-TIME STATUS ALERTS

A pop up screen notifies employees when an order is ready and when a table is recently sat.

ORDER "TO-GO" MEALS

Short on time or want an extra snack for later? Let customers order "To-Go" options for quick and easy convenience.

EAT SMART

Make accommodations to customer orders to meet various dietary and health restrictions.

PROMOTIONS

Our systems accepts coupons, gift cards, and promotions for holidays and special events.

"ARE YOU SURE" SCREEN

This screen confirms any major changes made by the employee to prevent human error.

SWE'S FEATURES (CONTINUED)

REMOVE FOOD BUTTON

Allows an employee to remove food from an order if the order was accidentally made or changed.

EASY USER-FRIENDLY HOST UI

The host's interface shows the status of the tables, so waiters can immediately tend to customers.

NOTIFY MANAGER

Keep instantaneous communication with your manager in case any issue at hand arises and can be dealt with promptly.

BROADCAST MESSAGES

Allow administrative users to broadcast important messages to all employees.

EMPLOYEE TRANSPARENCY

Employees receive real-time, instantaneous responses from each other, so they can collaborate together easily and efficiently.
